## Education

---

### VIT Bhopal University

Sept 2022 – May 2026

BTech in Computer Science(Specialization in AIML)

- CGPA: 8.34

## Technologies

---

**Languages:** Python, MySQL, JavaScript, HTML/CSS

**Technologies:** HuggingFace, ChromaDB, FAISS, Streamlit, LangChain, CrewAI, FastAPI

**Tools:** Github, Visual Studio Code

## Projects

---

### Food Ordering Web App [\[Link\]](#)

- Developed a full-stack food ordering application using React.js, Node.js, Express.js, and MongoDB, enabling user authentication, product browsing, and order placement.
- Built dynamic dashboards for users, admins, and restaurants with role-based access, live geolocation-based address detection, and secure JWT authentication, and engineered RESTful APIs with real-time UI updates, cart operations, and address autofill using OpenCage API.

### Medical ChatBot [\[Link\]](#)

- Developed an intelligent medical chatbot using Python, NLP, and TFLearn to handle user queries and suggest medicines based on symptom analysis.
- Built and integrated the backend with Node.js and Express, setting up RESTful APIs, adding token-based authentication, and managing data flow with MongoDB, then connected the AI model to a real-time UI with React.js for dynamic query responses and personalized healthcare suggestions, while handling security, testing, and bug fixes to keep everything stable.

### URL Shortener [\[Link\]](#)

- Developed a full-stack URL shortening application using Node.js, Express.js, and PostgreSQL, designing and implementing RESTful APIs for efficient URL management.
- Engineered a custom URL shortening algorithm with the nanoid library for unique, collision-free shortened URLs and data persistence, and built a responsive UI with Bootstrap and EJS templating for real-time URL generation and seamless user experience.

## Certifications

---

- Successfully completed FullStack Development MERN with MongoDB from SmartBridge. [\(Certificate\)](#)
- Successfully completed Applied Machine Learning in Python from Coursera. [\(Certificate\)](#)
- Successfully completed Data Science with Python from Iamneo [\(Certificate\)](#)

## Extra Curricular Activities

---

### Industrial Training [\[LINK\]](#)

September 2024

Preprod Corp, TVS and BSNL

- Engaged in a 2 week industrial training program at Preprod Corp, BSNL, and TVS, gaining actionable knowledge and skills from industry experts in Chennai and Bangalore.
